

Universal Mind

The Doors

I was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all right Then you came along
With a suitcase and a song
Turned my head around Now, I'm so alone
Just looking for a home
In every place I see I'm the freedom man
I'm the freedom man
I'm the freedom man
That's how lucky I am I was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all right Then you came along
With a suitcase and a song
Turned my head around Now, I'm so alone
Just looking for a home
In every place I see I'm the freedom man I was doing time in the universal mind
I was feeling fine
I was turning keys, I was setting people free
I was doing all right Then you came along
With a suitcase and a song
Turned my head around Now, I'm so alone
Just looking for a home
In every place I see I'm the freedom man
Yeah, that's how lucky I am
I'm the freedom man I'm the freedom man
