Take The Money And Run

DisJam

[Run]
Let me tell you about what I love with Gina
Lover like no other couldn't get in between her
Always stayed fly man, I'm wishing to seen her
Said they had a scheme, but nobody believed her
No real job cause she stay in the street
Gina didn't nail but the love made beats
When they want to eat, they just walked in the store
They took what they wanted man they the illest you saw
So one day they went uptown and seen em' with ice
Butter liked to change and Gina said they're breaking ice
Next thing you know they wan to pull of the heights
Shook to the look and shoot the tulip twice
Down with old Sherman as they flew in the air
Butter acting rough and Ram was struck by the pair
Gina had the door cause she goofed with the gun
They both grabbed the money and run

[Chorus]
Come on take the money and run (run)
Come on take the money and run, hey hey hey
Come on take the money and run
Come on take the money and run, hey hey hey

Smoothie was a rookie that was doing a scene
Used to be a dog, now he's doing it clean
Ironic he was cupping and they gave him the spot
Now Butter buffing Hollis used to chill in the park
Said run around they way with a brand new band
Gina looking pretty in the city of frame
Smoothie said y'all got to get these in
And these are the two I've got to act enhanced
And these were from Hollis promised not to tell
And leave these cocks from a long, long trail
Smoothie saw Gina and a chick turned pale
Ronnie saying something like she know got bailed
Butter said promise me I won't see jail
Smoothie won a watch in a brand new cell
Butter and Gina moved to Pepsi cola

Smoothie got a rollie and I'm on the roller

[Chorus]
Come on take the money and run (run)
Come on take the money and run, hey hey hey
Come on take the money and run, that's what I say
Come on take the money and run, yeah yeah yeah

All I can say is about the story
And living like Butter love is not floury
Let me show you how we get the money legit
Jack B. Nimble was nimble and he was quick
Well Run-DMC is the kings of rock
Rolled to the top and then we never get dropped
You still have us chilling in 2001
And me and D will take the money and run

[Chorus]
Come on take the money and run (run)
Come on take the money and run, hey hey hey
Come on take the money and run, that's what I say
Come on take the money and run, hey hey hey
Come on take the money and run, that's what I say
Come on take the money and run, yeah yeah yeah
Come on take the money and run, aha
Come on take the money and run, hey hey hey
Hey hey hey
Hey hey hey
Hey hey hey
That's what I say
