I Was a High School Psychopath

Screeching Weasel

(Vapid)
I realy hated high school it was such a drag everytime I walked the halls all the kids would call me a fag I dodn't care for physical ed and I didn't care for history I wanted to blow up my high school and take my G.E.D. I was a high school psychopath I needed therapy I was a high school psychopath with an overload of energy there was a teenage wasteland in my brain from staying after school I didn't wanna pledge allegiance because I thought it was so uncool each and everybody hated me they thought I was such a jerk with my leather jacket my ripped jeans and my Ramones t-shirt
