

# This Song

## Badly Drawn Boy

This song will need you when you're old  
This song will heat you when you're cold  
Believe you, when I don't  
This song will heal you from your soul This song will help you find a place to live  
And teach you not to take but give  
This song will help you in your dyin' doubts  
This song will send your lover flowers Rest by this song and the gifts that it brings  
Beautiful song, it has wings  
Wings  
Wings
