Don't you know the way it goes?
Don't you see the way it shows?
Don't you think everybody knows?
It's your life and you know it blows
Run away with the myth and baby, I got so much to see
Another take on what's at stake, yeah, it does so much for me
Hey yeah
Hey yeah
Hey
Rules are made for breaking
It's so easy to see
Now that you are wasted
What's it gonna be?
Go away with the bitch and baby, you're gonna get to see
For the sake of the piece of cake it wasn't meant to be
Is it me? Don't wanna know
Did I sink back in this hole?
Don't you see everybody knows?
I'm all fucked up, that's just the way it goes
Tried to say that I'm going crazy
Something's up with me
I put the make on the fucking fakes
Yeah, it does so much for me
Hey yeah
Hey yeah
Hey
Rules are made for breaking
It's so easy to see
Now that you are wasted
What's it gonna be?
Rules are made for breaking
It's so easy to see
Now that you are wasted
What's it gonna be?
Rules are made for breaking
It's so easy to see
Now that you are wasted
What's it gonna be?
Now you're drug related
Now you're drug related
