Stay Forever

4HIM

Time waits for no one
It's water thru our hands
Minutes turn the hands of time
They're waves upon the sand
I can't hold on living without You
When all hope is gone
Only You remain the sameCHORUS
Roses always fade
The sweetest summers pass away
This thing I know
God's love will stay forever
All things have to end
But with the spring life starts again
This thing I know
God's love will stay foreverThinking back on years gone by
You held me by my hand
The wonder in a child's eyes
Helps me understand
That life will go on with each new beginning
As it passes on
Only Your love stays the sameREPEAT CHORUSNever ending love
Never changing
Only Your love stays the same
