# To Be With You

## The Honey Trees

I climbed this hill watching so still
I took to the fears of all I held dear
But up on this height, a majestic sight
Flooded the skies
And how I could feel you near

Oh I could sail the world
Search through the darkest waters but
I'd never find
These golden eyes

I held the stars to light where you are
When your unfeigned heart called to me through the dark
Soaked in the sound that rose from the ground
There I could feel
I felt, I felt you near

Oh I could sail the world
Search through the darkest waters but
I'd never find
These golden eyes

Oh I'd wait for the seas to part
To be with you

Oh I could sail the world
Search through the darkest waters

Oh I could sail the world
Search through the darkest waters but
I'd never find
These golden eyes
