Luna

Moonspell

Bleed no reflection
On the waters that fear
Make things happenAccept no resignation
For some life has been cruel
You have set the moodThinking about you
Luna, luna, lunaLay the serpent's egg
In this world of make believe
And make things realMy seed of a lunacy
Was a sign made to resist
A mood set from birthThinking about you
Luna, luna, lunaShow me your moon burns
Take me as the moon burns
Show me your moon burns
Take me as the moon burnsThe freezing moon
Making things real for me
The killing Moon
Making things happen for meLuna, luna, lunaLuna
(All above)
Luna
(Wound of light)Luna
(In the enemy skies)
Make things happen for meOn the eve of self destruction
On the eve of all can be
Thinking about you
