

# All I Want

Simon Webbe

Ask me where the worst place could possibly be  
Well, I'm already there girl and you know what?  
Guess how long it took to set all my demons free?  
Well I'm already there girl I got my wake up call when you shut that door  
And it all became clear to me All I want is you, I'm no longer confused  
My life is not the same and I'm to blame  
I need you, babe Say this love won't die, give me one more try  
Don't really have to say, you gotta leave, you wanna break  
I need you, baby, oh yeah, oh yeah, yeah, yeah I swear I'll change my ways if you promise to stay  
You know my biggest fear girl?  
I go to bed and thought if you found somebody else  
Now, that's my biggest fear, girl So take a look at me, see how I've changed  
There's no one to take your place All I want is you, I'm no longer confused  
My life is not the same and I'm to blame  
I need you, babe Say this love won't die, give me one more try  
Don't really have to say, you gotta leave, you wanna break  
I need you, baby, oh yeah, oh yeah  
I need you baby Girl, I know I did you wrong, yeah, baby  
I gladly take you back if I could  
I don't wanna fuss and fight  
Just gotta make things right, we've still got the time All I want is you, I'm no longer confused  
My life is not the same and I'm to blame  
I need you, babe Say this love won't die, give me one more try  
Don't really have to say you gotta leave, you wanna break All I want is you, I'm no longer confused  
My life is not the same and I'm to blame  
I need you, babe Say this love won't die, give me one more try  
Don't really have to say, you gotta leave, you wanna break  
I need you baby, oh yeah, oh yeah
