Baby

White Hinterland

Baby, I'm gonna do
All the things you taught me to
My shyness was an act
To make you feel secureBaby, when I ache
Do you twist up inside?
Like I achieve out in the wind
But do you wrong when I turn you down
Look close, these eyesAnd the road runs wide
Rebel for it stops
See the day, go see
But I can't even dropOh, is this my weakness?
Is this my weakness?
Is this my weakness?
Running offIn a dim lightened bay
Thinking oh, I'll do the same just off the moss
And I comb the trash bag when you rush through
Pushed your head into the water
Till all your breath gave outBaby, go on, I hope you do
Find a woman with the patience it takes to love you
Bare your children
When it gets cold gave her the jacket I gave you
Will you see me passing bySmile and nod
Smile and nod
Smile and nod
Smile and nodAnd the road runs wide
Rebel for it stops
See the day, go see
But I can't even dropOh, is this my weakness?
Is this my weakness?
Is this my weakness?(Repeat)
