

Nature of the Experiment

Tokyo Police Club

We've got our tracks covered
Thanks to your older brother

Its not the moonlight that sets me off
Its not the money that makes me scoff

Its my impeciable disorder,
Where I keep on falling for her

Its not the way my mother talks
Its not the people that she mocks

CHOROS:

Its the nature of the experiment
Its the patterns of my temperment
Its the nature of the experiment
Its taken me an increments

We're halfway up the bracket
The rain comes through my jacket

Its not the stones inside my shoes
Its not the risk of whats to lose

Its the ancient russian proverb
I doubt its one that you've heard

Its not the cracks beneath the floor
Its not the fact that it isn't yours
oh no its not

CHOROS:

Its the nature of the experiment
Its the patterns of my temperment
Its the nature of the experiment
Its taken me an increments
