On Your Way Down

Helmet

You have worked your way up to the top
Thought that you would make the whole world stop
Up to Venus, Mars and Jupiter
Bet your feet don't even touch the EarthOn your way
On your way down
On your way
You're on your way downStumbling drunk now with authority
You've taken all that you can take from meOn your way
On your way down
You're on your way
On your way downAre you lying to yourself?
There's no right or wrong
No heaven and no hell
Now you're losing all your friends
To surround yourself with
All those dull, yes menOn your way
You're on your way down
On your way
You're on your way down
On your way
