

Bite the Bullet

[Motörhead](#)

Stepping out, I'm leavin' here
No use cryin', cryin' in my beer
Enough's enough, believe it's true
Bite the bullet, I'm leavin' you I said, goodbye, I left a note
But I don't remember, what I wrote
The same old words, to say we're through
Bite the bullet, I'm leavin' you You know that's the way it always ends
Get sympathy from all your friends
Seems there's nothin', nothin' else to do
Bite the bullet, I'm leavin' you
