

# Runnin' Outta Moonlight

Randy Houser

Don't you worry 'bout gettin' fixed up  
When you wake up, you're pretty enough  
Look out your window at the cloud of dust that's my headlights, that's my truck  
Come on baby, don't you keep me waitin'

I gotta go, I've got a reservation tailgate for two underneath the stars  
Kiss on your lips when you're in my arms  
Whoa, girl every now and then you get a night like this  
Whoa, this is one that we don't wanna miss, no  
Come on baby let me take you on a night ride  
Windows down, sittin' on my side  
Tick tock now we're knocking on midnight  
Me and you girl runnin' outta moonlight  
I wanna hold you 'till the break of dawn  
Hear the crickets sing a riverside love song  
Hey baby, all we got is all night  
Come on now we're runnin' outta moonlight  
Girl I bet you thought I lost my mind  
Outta the blue pulling into your drive  
Wonder why I got you way out here  
Have you ever seen a sky this clear  
Whoa, girl you never look better than you do right now  
Whoa, oh heaven let your light shine down  
Come on baby let me take you on a night ride  
Windows down, sittin' on my side  
Tick tock now we're knocking on midnight  
Me and you girl runnin' outta moonlight  
I wanna hold you 'till the break of dawn  
Hear the crickets sing a riverside love song  
Hey baby, all we got is all night  
Come on now we're runnin' outta moonlight  
Whoa, girl, every now and then you get a night like this,  
Whoa, this is one that we don't wanna miss, no  
Come on baby let me take you on a night ride  
Windows down, sittin' on my side  
Tick tock now we're knocking on midnight  
Me and you girl runnin' outta moonlight  
I wanna hold you 'till the break of dawn  
Hear the crickets sing a riverside love song  
Hey baby, all we got is all night  
Come on now we're runnin' outta moonlight  
Hey baby don't it feel so right  
Come on now we're runnin' outta moonlight  
All I wanna do is hold you tight come on, come on, come on we're runnin' outta moonlight  
Whoa, yea we're runnin' outta moonlight, whoa
