

# I Miss That You

## Reality Addiction

Young and Careless,  
When nothing really mattered  
All there was the games we played  
We thought it would last forever  
I opened up my eyes today  
And only games that slip away  
Why am I still that call you make  
And all I gives advice you take

So take a look around,  
With two feet on the ground,  
This is the way I look at you and say  
I miss that you  
I miss that you

Oh ya

I knew id come home tonight  
I'd see that familiar Abe Lincoln light  
I must have seen it a thousand times  
Should I pick you up or let it die

I bet he doesn't hold you right  
I bet he doesn't hold you tight  
Seems like all you do is fight  
And all I am to you is advice

So take a look around,  
With two feet on the ground,  
This is the way I look at you and say  
I miss that you  
I miss that you

Mmm ya  
I miss you

So take a look around,  
With two feet on the ground,

This is the way I look at you and say

I miss that you

I miss that

Im just a little tired

Of being the voice at the end of the wire

This is the way I say

I need you

I need you

So take a look around,

With two feet on the ground,

This is the way I look at you and say

I need you

I need you
