

Was It Something I Said

Orchestral Manoeuvres In the Dark

Was it something I said or something you read
That's changing your mind, that's turnin' you around?
Was somebody wrong or somebody right
What was it made up your mind, what could change overnight? And if all of your friends they used to be mine
Come down off the fence, I'd swear that you'll find
I can hate you no more, I can't even the score
Almost half of my life just fell right on the floor Don't you come 'round here no more
Don't you waste my time
Don't you dare to phone me
Don't you even have me on your mind Was there someone you know who won't let you go?
They're pushing you under and bleeding you slow
They don't want your time, they won't give you mine
Their hand's in your pocket and your heart's on the line I know I'm not perfect, I wanted to be
I have this big mouth, it always contradicts me
You say you don't know, I say anything goes
Baby, you think it's over then this you should know Don't you come 'round here no more
Don't you waste my time
Don't you dare to phone me
Don't you even have me on your mind Was it something I said or something you read
That's changing your mind, that's turnin' you around?
Was somebody wrong or somebody right
What was it made up your mind, what could change overnight? Was it something I said or something you read
That's changing your mind, that's turnin' you around?
Was somebody wrong or somebody right
What was it made up your mind, what could change overnight? Was it something I said or something you read
That's changing your mind, that's turnin' you around?
Was somebody wrong or somebody right
What was it made up your mind, what could change overnight? Was it something I said or something you read
That's changing your mind, that's turnin' you around?
