

# Free Money

## Verbal Abuse

I don't want your problem

Sopping all the time

I can't even go

When I don't even have the time I want everything and every thing wants me

I want everything and every thing comes out of me I want free money (3x) Life is slavery working 9 to 5

Waste your time working

You might as well die I want everything and every thing wants me

I want everything and every thing comes out of me

Life is slavery working 9 to 5

Waste your time working

You might as well die
