On the Take Again

Consumed

you're always on the back of others.
There's no one here to back you up.
Put on a smile, get out of my face and when you're gone,
I'll have fun all the time, it's fucking ace.
Is this the way it has to be?
You keep yourself to your self, this is often what they say.
Put on your boots, get up on their case.
And when they're gone, you'll have fun all the time it's fucking ace.
chorus:
You're on the take again.
You're on the take again,
and if I didn't know you better I would try it again.
chorus.
And if I didn't know you better I would try it again (4x)
