

All Night Long

Muddy Waters

I want you to rock me, baby, after the sun goes down

I want you to rock me, mama, after the sun go

I want you to hug and kiss me, tell me you always be mine I want you to throw your arms around me

Like a circle round the sun

I want you to throw your arms around me

Like a circle round the sun

I want you to call me daddy (oh yeah) and let the world know
