Genesis

Cindergarden

a perfect match
incorporeal design
pieces fit
string together warning signin the distance
coming into form
netherworld symmetry
a new arrangement bornthe genesis
a puzzle slips in place
the figure cast
development in time and spacesilhouette
shaping truth collide
pulling you apart
visceral decay insidefar removed
events to unevolve
reaching through
darkest mirror riddle solvedfallen light
underneath me still
wickedness
the only thing left to kill
