

# Solo Star

## Solange Knowles

S O L O S T A R, that's how I roll  
Solo stars keep rockin', don't follow nobody's lead, lead  
S O L O S T A R, that's how I roll  
Startin' my own style an' I'm takin' it to the streets, streets  
Well, I hate seein' people  
Rock the same style  
At the same time  
They think that it is fly  
But yo, you really need to know  
Yo' looks need to be solo  
You'll never catch me with something  
You have up in your wardrobe  
Solo, got do my own thing  
Solo, may not understand me  
Solo, dancin' to my own drum  
An' y'all really don't want none, come on  
(Solo)

S O L O S T A R, that's how I roll  
Solo stars keep rockin', don't follow nobody's lead, lead  
S O L O S T A R, that's how I roll  
Startin' my own style an' I'm takin' it to the streets, streets  
From my head to my socks  
Down to my cell phone  
I rock it solo  
Think of things y'all don't know  
So look like twins in Versace  
BCBG, Gucci, BeBe  
Yeah, I like it but don't buy it  
'Cause y'all wear it, it ain't for me  
Solo, I got to do my own thing  
Solo, may not understand me  
Solo, dancin' to a my own drum  
An' y'all really don't want none, come on  
(Solo)

S O L O S T A R, that's how I roll  
Solo stars keep rockin', don't follow nobody's lead, lead  
S O L O S T A R, that's how I roll  
Startin' my own style an' I'm takin' it to the streets, streets  
Dance, dance

S O L O S T A R

S O L O S T A R

S O L O S T A R

S O L O S T A R

S O L O S T A R, that's how I roll

Solo stars keep rockin', don't follow nobody's lead, lead

S O L O S T A R, that's how I roll

Startin' my own style an' I'm takin' it to the streets, streets

S O L O S T A R, that's how I roll

Solo stars keep rockin', don't follow nobody's lead, lead

S O L O S T A R, that's how I roll

Startin' my own style an' I'm takin' it to the streets, streets

S O L O S T A R, that's how I roll

Solo stars keep rockin', don't follow nobody's lead, lead

S O L O S T A R, that's how I roll

Startin' my own style an' I'm takin' it to the streets, streets
