

# Termination

## Micron

They are coming you know who  
to take us over  
they talk to them  
you know the government  
the aliens, they're here  
empire built on blood and bones  
take a look at where we're going  
stepping over fallen friends  
time and time again  
here they come to overtake  
we're their toys  
they've come to overtake  
they've come to break us down to the ground  
TERMINATION  
we're their toys, perfect society, they fuck with our heads  
and kidnap the face,  
they fuck it up  
this fucked up place  
empire built on blood and bones  
take a look at where we're going  
stepping over fallen friends  
time and time again  
here they come to overtake  
we're their toys  
they've come to overtake  
they've come to break us down to the ground  
TERMINATION  
they may wipe off this shitty place  
this ruined planet  
this dying race.
