

# A Farewell to a Friendship

## A Change of Pace

Say something, anything right now  
You know I'm choking on how bad it hurts  
To say goodbye  
Trust in the words I say to you  
It's killing me to see you desperate  
Believe in what you want Just tell me how long it takes  
Until I'm in the right place Here we go again  
I'm happier without this left behind  
But it's all over now  
Ready to go, ready to go, ready to find a way some how  
Ready to go, ready to go, ready to leave it Say something anything right now  
I know you're choking on how bad it hurts  
To let us go  
Cry yourself asleep again tonight  
Write a note sent with your love from everyone, everyone Just tell me how long it takes  
Until I'm in the right place Here we go again  
I'm happier without this left behind  
But it's all over now  
Ready to go, ready to go, ready to find a way some how  
Ready to go, ready to go, ready to leave it all behind, all behind You build me up, can't break me down  
I'll find a way to leave this town  
And nothing good you'll ever say  
Will stay with me, please stay with me You build me up can't break me down  
I'll find a way to leave this town  
And nothing good you'll ever say  
Will stay with me, please stay with me, stay with me Here we go again  
I'm happier without this left behind  
But it's all over now  
Ready to go, ready to go, ready to find a way some how  
Ready to go, ready to go, ready to leave it all behind, all behind
