

My People (feat. James Ingram)

Angie Stone

My people!
Yeah!
My people!
Yeah! The foundation of the United States
Rests on the sweat of my people
Every enemy of the USA
Has had to face my people on the front lines People, my people are dyin
And we see it all the time
Dont know where our future would be
If hes not here, how do we stay strong? Only we can save us from us
Bring about change we will show our people love My people, hold your head up
My people, dont get fed up
My people rise, my people fight
My people do alright My people walk with pride and
Were marchin side by side and
My people laugh, my people cry
My people ride and die People, my people, keep striving
Theres a greater master plan
We need to know our history
We were kings and queens of the greatest dynasty Only we can save us from us
Bring about change we will show our people love My people, hold your head up
My people, dont get fed up
My people rise, my people fight
My people do alright My people walk with pride and
Were marchin side by side and
My people laugh, my people cry
My people ride and die My people, hold your head up
