

# Poison Awaits

## Darkseed

Why cause our passion to run and hide  
Drown it beneath the rising tide  
And cause it shatter upon this earth  
Refuse the wonder of its birth?Sweet sound of yesterday  
We lit forbidden fires  
And the dark snake of sin  
Was coiling deep withinOur hearts were led astray  
Climbing walls of desire  
Your poison now awaits  
It lurks beneath the skinWhy cause our passion to pay the price  
To turn our hearts as cold as ice  
And hide beneath such filthy lies  
To toss our hopes towards the skySweet sound of yesterday  
We lit forbidden fires  
And the dark snake of sin  
Was coiling deep withinOur hearts were led astray  
Climbing walls of desire  
Your poison now awaits  
It lurks beneath the skinOn we strive to a new tomorrow!  
Close my eyes, dreams are on my side  
Glowing beams shattering my sorrow!  
Forevermore - surrounded by the lightSweet sound of yesterday  
We lit forbidden fires  
And the dark snake of sin  
Was coiling deep withinOur hearts were led astray  
Climbing walls of desire  
Your poison now awaits  
It lurks beneath the skinSweet sound of yesterday  
Sweet sound of yesterday  
Our hearts were led astray  
Sweet sound of yesterday
