

# Here

## Jeanette LindstrÃ¶m

There's a place I've been lookin' for  
That took me in and out of buildings  
Behind windows, walls and doors  
And I thought I found it  
Couple times even settled down  
Then I'd hang around just long enough  
To find my way back out  
I know now  
The place that I was tryin' to reach  
Was you right here in front of me  
And I wouldn't change a thing  
I'd walk right back through the rain  
Back to every broken heart  
On the day that it was breakin'  
And I'd relive all the years  
And be thankful for the tears  
I've cried with every stumble, step  
That led to you and got me here  
Right here, oh, baby  
It's amazin', what I let my heart go through  
To get me where it got me  
In this moment here with you  
And it passed me by  
God knows how many times  
I was so caught up in holdin'  
What I never thought I'd find  
I know now

There's a million roads I had to take  
To get me in your arms this way  
And I wouldn't change a thing  
I'd walk right back through the rain  
Back to every broken heart  
On the day that it was breakin'  
And I'd relive all the years  
And be thankful for the tears  
I've cried with every stumble, step  
That led to you and got me here  
In a love I never thought I get to, get to, here

And if that's the road God made me take  
To be with you  
And I wouldn't change a thing  
I'd walk right back through the rain  
Back to every broken heart  
On the day that it was breakin'  
And I'd relive all the years  
And be thankful for the tears  
I've cried with every stumble, step  
That led to you and got me here, right here  
And I'd relive all the years  
And be thankful for the tears  
I've cried with every stumble, step  
That led to you and got me here  
Right here, oh, baby  
Ooh, oh got me here
