Can Opener

Quicksand

A trap to fall, fall into easy
Believe in what you look like outsideA stain you cant remove
A stain that keeps you from that place
Where youd probably have much left to proveCome down, dont fall over your ego
Dont mind your friends
They just want to go where the fun goes down
Yeah, you want to go up, up, up, upHip, hip, hooray, for you
Now you're the one that everyone talks about
The attention you're not getting, it makes you so upsetSo take me down
To the place where you can look your best
Better than anyone else aroundA stain you cant remove
A stain that keeps you from that place
Where youd probably have much less to proveOnce you tried, once you tried
Tried to get it right
But you couldnt figure out what it takes to be likedYoure grown up and now youve gone back
To find a way to get along, its just an act
You can wipe that smile
Now youre the one that everyone talks aboutTake time, take it easy
I know you work so hard
But your advantage is your beauty
And thats beautifulTake time, take it easy
I know you work so hard
But you know what your advantage is
And thats beautiful, and thats beautiful
And thats beauty
