

This Is a Low (Live In Hyde Park, London 3/7/09)

Blur

And into the sea
Goes pretty England and me
Around the Bay of Biscay
And back for tea Hit traffic on the Dogger bank
Up the Thames to find a taxi rank
Sail on by with the tide and go to sleep
And the radio says This is a low
But it won't hurt you
When you are alone
It will be there with you Finding ways to stay solo
On the Tyne forth and Cramity
There's a low in the high forties
And Saturday's locked away on the pier
Not fast enough dear On the Malin head
Blackpool looks blue and red
And the queen, she's gone round the bend
Jumped off land's end
Radio says This is a low
But it won't hurt you
When you are alone
It will be there with you Finding ways to stay solo This is a low
But it won't hurt you
When you are alone
It will be there with you This is a low
But it won't hurt you
When you are alone
It will be there with you Finding ways to stay solo
