

# The Sun Loves the Moon

## Embraze

She is cold like water  
She is dark like night  
She fears love and  
Looks for pain  
I cry with the trees  
I sing with the wing  
I am the child of moonlight  
I am the child of doom  
She loves the moon  
Like I used to do  
She loves the moon  
Like the day loves the night  
Like the sun loves the moon and  
The call of the wild fills her heart  
I can't live without my life  
I can't live without my soul and  
I am looking for you every autumn night  
My life didn't begin untill I saw your face  
Why have you not come back to me?  
She loves the moon  
Like I sed to do  
She loves the moon  
Like the day loves the night  
Like the sun loves the moon and  
The call of the wild fills her heart
