

# Fact of Love

## Musiq Soulchild

Gravity, without it there can be no fall  
That must be the way you keep me from falling apart  
In this world, you're such an important necessary part of my life  
And without you I ain't right Just like birds fly and fish swim  
I need your love  
Like the sun shines and the world spins  
I need your love, yeah Energy, no matter where, I feel you throughout any measure of space and time  
Yeah, so when there's something wrong and I'm not there  
Just know I ain't far  
I'll come running  
I'll travel around the world, just to be around you girl, I promise  
Just like birds fly and fish swim (and fish swim)  
I need your love  
Just like the sun shines (and the world) and the world spins  
(I need) I need your love  
Yeah, I need your love Girl, after waiting for you for a very long time (ooh girl I've been waiting for you)  
If we met before now (if we met before now)  
If we met before now, it would've been too soon (it would've been too soon)  
But now that you're here, all my love is yours, and yours is all mine (all your love is mine)  
And we gon' be just fine  
'Cause we go together just like Just like birds fly (fly) and fish swim  
(I need) I need your love  
(Your love, just like the sun)  
Just like the sun shines and the world spins  
(I need) I need your love  
I need your love  
Just like birds fly and fish swim (and the fish swim)  
(I need) I need (your love) your love (love, love)  
Just like the sun shines (and the world spins) and the world spins  
(I need) I need your love  
I need your love, your love, your love, your love, yeah
