

# Cold Shoulder

**Josh Turner**

If Ida lied, if Ida cheated, Id understand  
Ive tried my best to be the perfect man  
Now all I really wanna do is hold er  
But all shes given me tonight is a cold shoulderI wish that she would tell me what shes going through  
Or go ahead and leave me if shes going to  
But its like she hasnt heard a word Ive told er  
All shes given me tonight is a cold shoulderI dont know the woman shes turned into  
But I do know that shes got my heart turning blue  
The more she turns her back, the more the nights get colder  
I put all the blame on her, cold shoulderI wish that she would tell me what shes going through  
Or go ahead and leave me if shes going to  
But its like she hasnt heard a word Ive told er  
All shes given me tonight is a cold shoulder
