

Wark

Kwoon

Hello my friend, I know a place of rebirth
If you dare, come and see its real
Hello my friend, let's go and forget our world
If we stay, we'll be turned into dust
Hello my friends, I've drawn this place with my heart
If you dare, come and see my gift
I've sowed black tears on every hill down the waterfalls
If you care, you will see the limbo green
Hello all kids, I know the bliss, would you follow me ?
We will reach our new home
My name is Wark, I'm weird and dark, and I'll make you believe
In ten years, you'll be younger than today
