

Electric Blue (feat. T.I.)

Nicole Scherzinger

At night
All I think about is you
On that high
This is what you do Rock with me steady
Set, ready
Sweet baby
Come down like confetti
Rock steady
Feeling good already
Look at what you do
Electric blue Need you
You need me
It's amazing what we could be
I need you
You need me
This is what those little three letters have done to me You wanna talk about it
You wanna read about it
Bring your ass over here
Come see about it (wow wow wow, wow wow wow) All the time
Got you on my mind
Should be a crime
Give me life
Don't ignore the signs
Let me help you decide
'Cause I'm yours
It's only right
That you would be mine Rock steady
Feeling good already
Look at what you do
Electric blue Need you
You need me
It's amazing what we could be
I need you
You need me
This is what those little three letters have done to me You wanna talk about it
You wanna read about it
Bring your ass over here
Come see about it (wow wow wow, wow wow wow) You wanna talk about it
You wanna read about it

Bring your ass over here
Come see about it (wow wow wow, wow wow wow) Come on, shawty, your ass gon' see
I give it to ya bet your ass gon' see
Hol' up, let me take ya, ain't not bitches frontin', girl
Just strip ya naked, take a picture of you
If you like what you see, then let me give it to you
I'll make up for that sucka shit that nigga did to you
And come on, I know he questioning your whereabouts
But fuck 'im, your happiness is all I care about
Another day, another dollar, in Bugatti we ride
A half a million 'round my collar with that yaka inside
I can provide and protect, even better than that
Anybody disrespect and I'ma get 'em a check
I'll renovate your whole world
Make your home-girl jealous
'Til you tell her "that one mine, get your own, girl"
Ay! 'Cause you deserve it, I'll find a place
Free of the sucka that you wouldn't give the time of day
Overlook the views of blue skies
Beautiful sophistication
But me and you equal fornication Need you
You need me
It's amazing what we could be
I need you
You need me
This is what those little three letters have done to me You wanna talk about it
You wanna read about it
Bring your ass over here
Come see about it (wow wow wow, wow wow wow)
