

# Slavery

## Mungos Hi Fi

I've given up everything 'till it seems so fucking wrong  
I've always been tied to you, now the bond is fucking gone  
    You're just a victim  
    Of your own decisions  
    And your desperation  
Is like watching an accident I reject the way you need  
    To hurt yourself to get to me  
    I will break away from you  
My regret is knowing you You've thrown away everything and you hope I sympathize  
    It's kind of like slavery to a world of fucking lies  
    You're not the victim  
    Of your own addictions  
    And your desperation  
Now you won't get my sympathy This feels like slavery  
    This ends it all  
    This feels like slavery  
    This ends it all
