

Nobody Wins

Kris Kristofferson

Anymore it doesn't matter
Who's right or wrong
We've been injuring each other
For much too long And it's too late to try to save
What might have been
It's over, nobody wins Make believin' in forever
Is just a lie
And it seems a little sadder
Each time we try 'Cause it's a shame to make
The same mistakes again, and again
It's over, nobody wins We've gone too far too long
Too far apart
The lovin' was easy
It's the livin', that's hard And there's no need to stay and see, the way it ends
It's over, nobody wins
It's over, nobody wins
