## **Nobody Wins**

## Kris Kristofferson

Anymore it doesn't matter Who's right or wrong We've been injuring each other For much too longAnd it's too late to try to save What might have been It's over, nobody winsMake believin' in forever Is just a lie And it seems a little sadder Each time we try'Cause it's a shame to make The same mistakes again, and again It's over, nobody winsWe've gone too far too long Too far apart The lovin' was easy It's the livin', that's hardAnd there's no need to stay and see, the way it ends It's over, nobody wins It's over, nobody wins
