

New Calm, Pt. 3

Ought

I am held down
I am not held down
For example in my sleep I often fly
I am held down
I am not held down
For example in my sleep I often flyWhat a funny day
What a funny day
Giving into the cycle of things
Giving into the cycle of thingsAn ocean of air rushes over your head
Pushing back your ears
Smiling, smiling
That is some good, clear water
An ocean of air rushes over your
Your head
That is some good, clear waterI am thrilled to dance
And I am thirsty
What a funny day
And that is some cool, clear water
I am done
