

The Water Beneath You

The Naked and Famous

I'll be right here with you
Every step of the way
Don't be afraid, it's not too late
To make this into more than just the
(Bones to keep you braced)
Through every angle of your pain I can't fill the emptiness
But I will find a way (to be the) Palpitations remind you
We're made in simple forms
We falter fade
We dissipate
We break the things we swore would never change us
Or undermine the promises we made I can't fill the emptiness
But I will find a way (to be the) The water beneath you
The waves to catch your fall
The love that you needed
It was never here at all Just don't let go, just don't let go
Just don't let go, just don't let go
Just don't let go, just don't let go
Just don't let go, just don't let go I hear you, defeated, and calling out my name
The guilt that is forever mine
To know that I'm to blame for every
(Tear and every sigh)
And every moment of your grief
If you can forgive my rotten deeds
I'll find a way (to be the) The water beneath you
The waves to catch your fall
The love that you needed
It was never here at all Just don't let go, just don't let go
Just don't let go, just don't let go
Just don't let go, just don't let go
Just don't let go, just don't let go
