## Blessthefall

Keep moving down the line, what's sitting here is mine
You've taken far too long, go back where you belong
This place is not for the weak
And they've all been begging for the truth
It's over now, It's over now

We gave our lives for this
It's all we have, it's all we'll ever know
We sacrificed for this, when it's said and done
Remember scars to show, we'll have our scars to show

I am destruction, you'll never be the death of me
You are deception, I am the one that you betray

We gave our lives for this, it's all we have, it's all we'll ever know
We sacrificed for this, when it's said and done
Remember scars to show, our scars to show (we'll have our scars to show)
Remember scars to show, from now till the end
From now until the end
It's set in stone now there's no turning back
We'll stand our ground, we are unbroken
It's set in stone now there's no turning back
We'll stand our ground, we are unbroken (from now until the end)
It's set in stone now there's no turning back
We'll stand our ground, we are unbroken (from now until the end)
We are unbroken, we are unbroken
