

# Away from You

## Noise Ratchet

Your fist broke the vein  
Flowing straight to your heart  
Ripping her world apart  
So she'll be turning away Away from you now  
Leaving her out  
To fight alone  
To cry alone Her name is dancing  
Off your lips, with hate  
Flowing straight to here heart  
And tearing her love apart  
Yes she'll be turning away
