

High Hopes

[Sammy Hagar](#)

Another dream goes up in smoke, huh
And so, fire me up, another token
Yeah, I'm comin' on
I've got master plans, by the dozens
Flashin' through my brain, when I get buzzin'
Oh, suddenly, they're goneAll the inspiration, runnin' through your head
Instant stimulation, oh, you're runnin' on
You got high hopes and they're up in smokeUp all night, tweakin' every detail
The way I've got it, this could never fail
Hey, this could be the big one
High hopes, come and go so high
But comin' down, fade away and die
High hopes, I got them, more than a dream
They all get wasted, yeahAll the inspiration, runnin' through your head
Instant stimulation, oh, you're runnin' on
You got high hopes, you're livin' on high hopes
High hopes, oh yeah, but they're wastedHey, watch itNow listen, all that talk is gettin' nothin' done
Ain't it hard to move, when your body's numb
Put it off another day
High hopes, come and go so high
And comin' down fade away and dieHigh hopes, they're nothin' more than a dream
They all get wasted, yeah
All the inspiration, runnin' through your head
Instant stimulation, they're givin' you
Oh, you got, well, oh, high hopesYou're livin' on high hopes
You got high hopes, high hopes, yeah
High hopes, keep livin' on high hopes, high hopes
