

Country Dumb

Josh T. Pearson

I come from a long line in history
Each one more tired than the one before
All of us to to pay attention
Sweet dreamer ...
They say that even in my over
But not in this old lonely world of mine
So if youre ever wonder Im too good head on
Say your prayer of old for my drifted sweet dream of mine
We are not what you call over
We are each and every one
Were the will always need of
Look I dont play country dumb
Were the kind who never take responsibility
Yeah the only single ever take time you will be my lead
And the only thing ever give to you will be my good grief
Ive count the cost baby doll I know that jesus saves
Cause nothing in this world is for free
There are reasons I was alone when I met you
Reasons that go back a long long way in time
There are reasons that I am sure going to leave you
They come from a district
Were the kind to start the and just do nothing
The kinds you have 10 000 would be great ungrateful to run
Were the kind stuck in the past but we see well into the future
You see Ill miss baby doll you aint even come
You see Ill miss baby doll you aint even come.
