

# Accelerator

## Desolator

What's this useful optimism  
Empty headed kids are bad  
God I'm feeling I got a hunger  
I love my soul I'm satisfied  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on  
Hit the accelerator, the accelerator  
Living on to be a sinner  
Lord it's hard to be a saint  
Had a sister, had a grandma  
It's bad to show I can't let you in  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on  
Hit the accelerator, the accelerator  
Come onHere we come, we're coming fast  
Out the upside into the past  
Forced to screaming in my head  
Into the future, into the future  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on  
Hit the accelerator, the accelerator  
Come on, come on
