

# Beautiful Sound (Below the Radar mix)

## Newsboys

Turn the page, can't turn the light out  
Every word, every line carries to my soul  
Dark letters on a page, singing so loud  
Where did I go wrong not to hear you? Eighteen years I guess it was alright  
I let you do the thinking, I'd just bide my time  
Father to son, Sunday hand-me-down  
Where did I go wrong not to hear your song? It's a beautiful sound moving through the crowd  
Voices lifted up on high for you  
It's a beautiful song, we've only just begun to understand  
Rediscovering you To have found you and still be looking for you  
It's the soul's paradox of love  
You fill my cup, I lift it up for more  
I won't stop now that I'm free, I'll be chasing you like you chase me It's a beautiful sound moving through the crowd  
Voices lifted up on high for you  
It's a beautiful song, we've only just begun to understand  
Rediscovering you Oh, something so beautiful, hey  
It's a beautiful sound moving through the crowd  
Voices lifted up on high for you  
It's a beautiful song, we've only just begun to understand  
Rediscovering you It's a beautiful sound moving through the crowd  
Voices lifted up on high for you  
It's a beautiful song, we've only just begun to understand  
Rediscovering you It's a beautiful sound moving through the crowd  
Voices lifted up on high for you  
It's a beautiful song, we've only just begun to understand  
Rediscovering you Something tells me it's alright  
You know it's gonna be alright
