Turn it up boy boy turn it up boy
Turn it up boy boy turn it up boyThis could be like Romeo Juliet
A tender love we won't regret
I feel the way you're feeling to
But baby I need more volumeI need to hear your heart go boom
If we're going to rock it rock the room
Do it as bad as MJ did
Baby don't whisper what you're sayingJust imagine us now but with a little more power
We'd be thundering
We could make it so hot
And we'd be living it up so do me one thingTurn it up (x4)
Turn it up louder louder louder
Turn it up louder louder louder
Pump that bass under my feet
Feel that rhythm your heartbeat beat
Turn it up louder louder louder
Turn it up boy boy turn it up boy (x4)I gotta get a rush so I need to say your love is dangerous
But now you're pushing zero on the meter
So go connect your body to a speaker oohI need emotion
You don't need to worry about caution
I wanna push your level to distortion
I wouldn't really care how much ive missed 'cause I can handle handle thisJust imagine us now but with a little more power
We'd be thundering
We could make it so hot
And we'd be living it up so do me one thingTurn it up (x4)
Turn it up louder louder louder
Turn it up louder louder louder
Pump that bass under my feet
Feel that rhythm your heartbeat beat
Turn it up louder louder louder
Turn it up boy boy turn it up boy (x4)Are you getting to my heart
Are you really getting to ma to ma heart yeah
Eh yeah are you getting to my heart
Dude your really getting to ma to ma heartYou got to try always try keeping me
Boy if your finding it easy to leave
I won't be missing you like you missing me
And when I'm gone you'll be wanting to screamHeeeeeyy!Turn it up louder louder louder
Turn it up louder louder louder

Pump that bass under my feet
Feel that rhythm your heartbeat beat
Turn it up louder louder louder
Turn it up boy boy turn it up boy (x4)
