We All Die

Wednesday 13

Do ya think we'll be alright? It's hard to say
Will we get out of here alive? No not today
We're all running for our lives, will we be saved?
There's only one ticket out, up up and away
So many things I wanna say to you
Sorry for the things that I know I put you through
No matter what you always put a smile upon my face
Just know that I love you more than anything, just incase.
We all die
Woah, We all die.
Woah, We all die.
Woah, We all die.
I can't believe my eyes, What's happening?
Will I even get to say goodbye? It's hard to say
We're all running for our lives, will we be saved?

There's only one ticket out, up up and away
So many things I wanna say to you
Sorry for the things that I know I put you through
No matter what you always put a smile upon my face
Just know that I love you more than anything, just incase.
We all die
Woah, We all die.
Woah, We all die.
Woah, We all die.
So many things I wanna say to you
Sorry for the things that I know I put you through
No matter what you always put a smile upon my face
Just know that I love you more than anything, just incase.
We all die
Woah, We all die.
Woah, We all die.
