Orange Moon

Project Pitchfork

when I faced my ideas
I've been shocked
about the side effect
when you heard
what I planned to do
you wanted
to hold me back
but it seemed the only way to me
it is the only way for me
I don't want to act like they say
I don't want to follow their rules
I move into the center
I come to you
I come to you
the aim inside my heart
I am on a mission
I am on my mission
the orange moon
smiles at me
