Solid Gold

Status Quo

Take a ride to somewhere with me
Anywhere that you want, it could be
Sit on back and take it all in
I know where you're going
I know where you've beenA little smile a secretive grin
One more pull and we're out there again
Close your eyes and tell me you see
What you believe in is just you and me
Take it or leave it but take it from meI'm not worryin' I'm not lookin' back again
I ain't thinking it that way
No-one's tellin' you now what you gotta do
We're not listening that way
'Cos it's gold, solid gold
We are gold, solid goldTake a trip and I'll meet you there
We'll hang out on a wing and a prayer
Climb on board and put yourself in
We know where we're goin'
We know where we've been
What do we know of the dangers within?I'm not worryin' I'm not lookin' back again
I ain't thinkin' it that way
No-ones tellin' you now what you gotta do
We're not listening that way
'Cos it's gold, solid gold
We are gold, solid goldTake a ride to somewhere with me
Anywhere that you want it could be
Sit on back and take it all in
I know where you go
And I know where you've been
What do we know of the dangers within?I'm not worryin' I'm not lookin' back again
I ain't thinkin' it that way
No-one's tellin' you now what you gotta do?
We're not listenin' that wayI'm not worryin' I'm not lookin' back again
I ain't thinkin' it that way
No-one's tellin' you now what you gotta do
We're not listenin' that way'Cos it's gold, solid gold
We are gold, solid gold
