

# Metal Queen

## Bif Naked

Metal queen ive never been or a punker chick  
Often heard but never seen and dated mostly dicks  
Angry white females a term you should save for your mothers  
I'd be sleeping the whole tour if I had my druthers  
I don't party I ain't down with bull shit anymore  
To many times I came to with the devil at my door  
That great word alternative applied inn 1989  
Now it's a cop out catch fraise that covers us like grime  
Music will be to you and me whatever it becomes  
Sometimes makes s fell happy and sometimes makes us glum  
The only thing I have to say and you may think its bent  
But it's all just about emotions up for entertainment
