

Orchid Club

Blondie

Ah, ah, ah adventure very near and then you vanish
Rescue from invasion narrowly avoided
Have to live with nature
Hear a voice from a novel
Love persuasion very near and then you vanished
Some say he's too handsome some say he's unique
Steel the weave the night trick aphrodisiac
Ah ooh ah the boy's herb vanilla, vanilla
They say I'll never find him or evidence left behind
Flip a coin to decide it
Is it now or never?
Have to live with nature
I hear a voice from a novel
Love persuasion
Oh Orchidia
Steel the weave the night trick
Weave the tale you find
Reappear in a vision
My heart's racing with the rhythm
Even in the drum beat time will tell the story
Orchidia, Orchidia, Orchidia, Orchidia
Looking for an adventure
Here today gone tomorrow
Articles declaring evidence to follow
Heart is pumping to the rhythm
The story is repeated
Where are you where are you Orchidia?
Where are you where are you Orchidia?
Whoa ooh oh where are ya Orchidia?
Orchidia?
Orchidia?
